PROFILE

Computer Science undergraduate building AI-powered applications using LLMs, automation workflows, and conversational AI technologies. Experienced in developing intelligent web applications, AI agents, and user-focused software systems.

EDUCATION

COMSATS University Islamabad, Sahiwal Campus

Sahiwal, Pakistan

Bachelor of Science in Computer Science

2022 – 2026

- CGPA: 3.05 / 4.00 | Intermediate: 912/1100 | Matriculation: 1050/1100

SKILLS

Technical: Python, JavaScript, HTML, CSS, Bootstrap, MySQL, REST API Integration, AI Automation, LLM Tools, OpenCV

Tools: GCP, AWS (S3, Athena, EC2), dbt, Tableau, Power BI, Excel, GA4

PROJECTS

Laravel Hotel Project – Hostily

- Developed AI-powered hotel booking platform with smart guest assistance, improving user experience.
- Integrated Laravel, AI chatbot, and recommendation algorithms for personalized hotel room suggestions.
- Improved booking experience through instant support and AI-driven accommodation recommendations.

AI Voice Agent

- Developed voice-enabled AI assistant using real-time conversational AI for seamless user interactions.
- Developed voice AI assistant using Python, OpenAI Agents SDK, and speech processing tools.
- Enhanced booking experience using AI-driven recommendations and instant guest support features.

AI Resume Analyzer

- Developed AI resume analyzer using AWS and NLP for ATS compatibility evaluation.
- Implemented skill matching and keyword analysis, improving resume-job alignment accuracy.
- Built interactive resume insights dashboard providing suggestions, ATS scores, and missing keyword analysis.

AI Caption Generator

- Developed AI image caption generator using Streamlit and Google Gemini for descriptive outputs.
- Implemented image upload functionality supporting JPG, JPEG, and PNG formats using Python.
- Built responsive Streamlit interface improving AI caption generation and overall user interaction.

ACHIEVEMENTS

- Engineered AI-powered applications using LLM APIs, speech processing, and intelligent automation workflows.
- Built full-stack projects integrating AI chatbots, recommendation systems, and interactive user experiences.
- Published and managed technical projects on GitHub with deployment, documentation, and version control practices.
